MSCI Index returns are shown with gross dividends reinvested.

**Risks** - The following risks are materially relevant to the fund (refer to prospectus for further details):

**Country risk (China)** - all investments in China are subject to risks similar to those for other emerging markets investments. In addition, investments that are purchased or held in connection with a QFII licence or the Stock Connect program may be subject to additional risks.

**Country risk (Russia and Ukraine)** - in these countries, risks associated with custody, counterparties and market volatility are higher than in developed countries.

**Issuer concentration risk** - to the extent that a fund invests a large portion of its assets in securities from a relatively small number of issuers, its performance will be more strongly affected by events affecting those issuers.

**Sector concentration risk** - the performance of a fund that invests a large portion of its assets in a particular economic sector (or, for bond funds, a particular market segment), will be more strongly affected by events affecting that sector or segment of the fixed income market.

**Small and mid-cap risk** - stocks of small and mid-size companies can be more volatile than stocks of larger companies.

**Style risk** - different investment styles typically go in and out of favour depending on market conditions and investor sentiment.

**Volatility risk** - the performance of the fund has a risk of high volatility.

## IMPORTANT INFORMATION

**General fund risks - to be read in conjunction with the fund specific risks above.** **Capital risk** - the value of your investment will vary and is not guaranteed. It will be affected by changes in the exchange rate between the base currency of the fund and the currency in which you subscribed, if different. **Equity risk** - in general, equities involve higher risks than bonds or money market instruments. **Geographic concentration risk** - to the extent that a fund invests a large portion of its assets in a particular geographic area, its performance will be more strongly affected by events within that area. **Hedging risk** - a Fund's attempts to reduce or eliminate certain risks through hedging may not work as intended. **Investment fund risk** - investing in funds involves certain risks an investor would not face if investing in markets directly. **Management risk** - the investment manager or its designees may at times find their obligations to a fund to be in conflict with their obligations to other investment portfolios they manage (although in such cases, all portfolios will be dealt with equitably). **Operational risk** - operational failures could lead to disruptions of fund operations or financial losses.
