Funds Transfer via Bank Counter

Customers are required to hold an active FCD account with the respective bank before making a transfer.

1. Exchange Thai Baht for foreign currency at a bank branch to deposit into your own FCD account, then initiate a transfer to the subscription account of Krungsri Asset Management.
2. Transfer foreign currency from your own FCD account via a bank branch to the subscription account of Krungsri Asset Management.

   (Currently, each bank does not charge fees for transferring funds into the subscription account. However, these terms are subject to change based on the conditions of each individual bank. Please verify the details with the specific bank you intend to use for the transaction.)

After transferring the funds, you must send the transfer slip along with your subscription order form to Krungsri Asset Management to complete your transaction request.

⊗ The Bank does not accept cash deposits in foreign currencies.⊗

Fund Transfer via Bank's Mobile App

Customers are required to hold an active FCD account with the respective bank before making a transfer.

KTB

1. Open the Krungthai Next app
2. Select the "Services" tab.
3. Sect the "Global Savings" menu > The System redirects to the Global Savings page.
4. Select the "Transfer" menu.
5. Select "Transfer foreign currency in Krungthai Bank"
6. Specify the number of the subscription account of Krungsri Asset Management and the transfer amount.
7. Press "Confirm" to confirm the transaction.

TTB

1. Open the TTB Touch app.
2. Select the "Transfer" menu.
3. Under the "Transfer to" heading, select the "Other account" menu.
4. Select the FCD account with a currency that matches the fund for the transaction as the source account.
5. Under the "To" heading, enter the details of the subscription account of Krungsri Asset Management and the transfer amount.
6. Press "Confirm" to confirm the transaction.

After transferring the funds, you must send the transfer slip along with your subscription order form to Krungsri Asset Management to complete your transaction request.
